

## Protein 80+ Chocolate

Extra creamy & delicious

4 protein sources: casein, whey protein, milk protein isolate, egg protein

Highest quality

incredible taste

Our legendary Protein 80 plus has been a fan-favorite for over a decade. The extraordinarily creamy protein shake powder combines four different high-quality protein sources: casein, whey, milk protein isolate, and egg albumin. Each of these proteins has a unique amino acid profile and will help with the maintenance and growth of muscle mass. One shake of Protein 80 Plus provides up to a 34 g of protein per serving (mixed with semi-skimmed milk (1.5%)). As the powder also tastes delicious in water, calorie conscious consumers can enjoy a great low-fat and low-carb alternative to milk-based shakes. Due to the unique 4-component composition, Protein 80 Plus shakes have an incredibly creamy texture for a delicious treat after your workout or anytime throughout the day. Also, with the amazing nutritional values, Protein 80 Plus is the perfect addition to your diet regimen, whether you just want to live an active and healthy lifestyle or have serious athletic goals. Protein 80 Plus is the perfect all-rounder: You can enjoy it as a breakfast milkshake, in between meals snack, post-workout or even pre-bedtime, to supply your muscles with amino acids while you sleep. Having a Protein 80 Plus shake is always a good idea – and never gets boring due to the absolutely delicious taste and the broad flavor variety. At WEIDER, our mission is to provide you with the best nutritional supplements, so you can live a healthy life. With over 85 years of experience in this industry, we have come to understand the importance of using only the highest quality, most trusted ingredients in all our products.
